

As a resident in a small community it is not always easy to receive good radio programs. K-Love has provided a great radio broadcast when others could not afford to provide one. If you take away the ability of the FM translators to provide a service to our community and many of the communities I travel through, you take away our ability to hear and learn from broadcasts we enjoy and that keep us connected. Please don't give the LPFM priority over the current users.

Thank you,  
Nate Brown
